## SEND GIFTS EARLY

DO NOT DELAY TOO LONG IN EXPRESSING PRESENTS FOR CHRISTMAS.

## EXPRESS COMPANY SUGGESTIONS

Public Urged to Begin Shipping By December 18—How to Pack Goods in Order to Make Certain of Delivery.

Express companies have come out early with a set of suggestions to the Christmas shoppers telling them how to ship their packages in order that they will reach their destination in time for Christmas, in good shape, and what is more important—that they are not lost.

They point out one fact. To be sure the express companies will pay for all lost or damaged articles, they say, but the pleasure the recipient would have felt should the article have been delivered does not repay one for what they would get out of the express companies, so they say it would be wise to follow their instructions.

First. Ship your package early, by December 18 if possible. The express company will give you a small label to paste on the package reading: "Do not open until Christmas." This will insure the package reaching its destination before Christmas, and give the additional pleasure to the recipient of the gift of having it on Christmas morning.

Second. Use wooden boxes for packing. Glass or fragile articles should be well protected. It may cost a few cents more, but the danger of loss or damage is very much reduced. True, if the shipment is lost or damaged, the express company will pay for it, but that will give your friend no pleasure.

Third. Write the address in full: state, county, city, street and number, on the box or package with ink, or crayon. Tags are frequently torn off and lost.

Fourth. If you want to prepay the charges write the word "paid" in large plain letters on the package.

Fifth. Insist on a receipt and see that the amount paid is marked on the receipt and package, and the value of the package declared thereon.

Sixth. Write your own address in full somewhere on the package, following the prefix, "from."

Seventh. Inclose a card in each box or package reading:

From .....

To .....

This in order that if the outer marking should be destroyed, the inner mark will insure prompt forwarding and delivery.

Eighth. If not convenient to ship in wooden boxes, use strong wrapping paper (not newspapers) and tie with strong cord.

Ninth. If package contained anything of perishable nature, write the word "Perishable" in large plain letters on the box, or package, to insure special attention and first delivery.

If you will observe these suggestions you will greatly assist in insuring the prompt delivery of your gift in good condition.

## A SCRATCH ON THE HAND

E. M. Shields, the Market Man, a Victim of Blood Poisoning.

E. M. Shields, the poultryman, is suffering from blood poisoning in his left hand.

Several days ago he scratched the member while dressing a turkey and later blood from a rabbit entered the scratch. Blood poisoning developed, necessitating the carrying of the hand in a bandage. Dr. A. J. Campbell is attending Mr. Shields.

## DR. COOK AT MULDOON'S

J. E. Hurley Has It Direct From the Physical Director.

Topeka, Dec. 14.—Dr. Cook, discoverer of the north pole, is at Muldoon's

physical training ranch in New York state. So says J. E. Hurley, general manager of the Santa Fe railroad.

"While east the other day," said Hurley, "I ran across Muldoon and he said Dr. Cook was at his place undergoing some physical stunts."

Muldoon's is a famous place for prominent men to secrete themselves. Two years ago Elihu Root, secretary of state under the Roosevelt administration and now United States senator from New York, mysteriously disappeared.

For several days his whereabouts was unknown. Finally he was located at Muldoon's. Senator Chauncey Depew also took a course on the Muldoon ranch.

## M'GEE-ADAMS' NUPTIALS

Sedalia Gentleman Won Fair Bride at Warrensburg.

J. V. McGee, a well known young business man of Sedalia, and Miss Laura B. Adams were married at the home of the bride's parents, Mr. and Mrs. Walter Adams, on Normal avenue, Sunday afternoon at 3:30 o'clock, says Monday's Warrensburg Star.

The wedding ceremony was performed by Rev. Gelvin, pastor of the Presbyterian church. Immediately after the ceremony the bridal couple left on the evening train for Kansas City, where they will spend a few days, after which they will be at home to their many friends in Sedalia.

They are both graduates of the state normal and are very popular as well. The Star wishes for them unbounded happiness.

## SIXTEEN WERE INJURED

In a Natural Gas Explosion at Topeka, Kansas, Today.

Topeka, Kas., Dec. 14.—Sixteen persons were seriously injured in an explosion of natural gas here today.

Frank Snyder, street commissioner, probably was fatally burned. Gas from a broken main entered a cistern and exploded when one of the men who was cleaning the place struck a match.

## SANTA CLAUS

## BOOK IS TOO PLAIN

OR, YOU MIGHT SAY, REV. BRADY'S LATEST WORK IS ENTIRELY TOO FRANK.

## EFFORT IS BARRED FROM LIBRARY

"The Isle of Regeneration," Written by Former Sedalia Rector, Who Is Now Preaching in Kansas City, Mo.

Toledo, O., Dec. 14.—The Rev. Cyrus Townsend Brady, late rector of Old Trinity Episcopal parish, in Toledo, and now pastor of a Kansas City charge, has won rank with Ellen Glynn and other modern writers by finding his latest book, "The Isle of Regeneration," barred from the Toledo public library.

The disbarment was admitted at the library yesterday. The reason given was: "The book panders too much to the sensational. The illustrations alone would be enough to condemn it."

Counting the cover piece, the illustrations number four, and deal with unadorned humanity in a luxurious setting of tropic glory.

The setting of the book is a torrid place and the drama staged upon it by the minister deals with the problem of sex and the rebellion of humanity against the conventions, as Brady sees it.

## DREAMED OF DISASTER

Sister of Sailor, Whose Body Is One of Nine Found, Says He Died.

Erie, Pa., Dec. 14.—Five of the nine bodies picked up by the Commodore Perry yesterday, the first found of the thirty-eight men who lost their lives when the car ferry Bessemer and Marquette No. 2, foundered in Lake Erie were sent to their homes last night.

According to a story related here, Sarah Clancy, a sister of one of the missing men, saw the car ferry sink while dreaming Tuesday night and since that time she has insisted that her brother is dead and all with him were lost.

Death of an Infant.

The four-months-old infant son of George Dabner, foreman of the Missouri Pacific machine shop, and wife,

who has been critically ill with bowel trouble at his parents home, 1204 South Washington avenue, died from the ailment at 9:30 o'clock this morning.

The funeral and burial services will be held Thursday.

Pig Roast Thursday Night.

County Recorder Walter Morey is chairman of the arrangement committee of Sedalia aerie No. 601, Fraternal Order of Eagles, which will entertain the members of the aerie at a pig roast at the aerie hall Thursday night.

An informal program will be rendered during the evening.

## ATTACKED BY LOON

MR. JOHN D. HYDE, A PROMINENT ATTORNEY LIVING AT BEDFORD, IND.

## FIRST THOUGHT WAS HIGHWAYMAN

Was Carrying Umbrella to Protect His Face From Sleet and Rain When He Felt a Stinging Pain on His Jaw.

Bedford, Ind., Dec. 14.—John D. Hyde, a well known attorney of this city, when going home last night in a heavy sleet and rain, held his umbrella low to protect his face.

The umbrella was struck a terrific blow, as if hit by a heavy club, and the next instant Hyde felt a stinging pain on his jaw.

He grabbed for the club of a supposed assailant, but found that he had got hold of a loon, a somewhat rare waterfowl about the size of a duck.

He took the bird home and exhibited it today in a downtown store. Mr. Hyde's face was badly discolored today. The bird will be turned loose.

## TO TIE NUPTIAL KNOT

Rev. J. H. Allen, of Sedalia, to Be Officiating Minister.

The Rev. J. H. Allen left this morning for Walnut Grove Christian church, near Boonville, where, at 11:30 o'clock tomorrow morning, he will unite in marriage Roger Q. Mills, of seven miles southeast of Boonville, and Miss Jessie Davis, daughter of Mr. and Mrs. Joseph Davis, of the same locality.

## FOR GOULD LINES

TWO MORE APPOINTMENTS ARE ANNOUNCED IN LEGAL DEPARTMENT.

## WERE MADE BY MARTIN L. CLARDY

One Appointee Formerly a Supreme Judge in Arkansas and Other Has Been Circuit Judge in This State.

St. Louis, Mo., Dec. 14.—Mr. Wilson E. Hemmingsway, general agent, executive department, with headquarters at Little Rock, Ark., has been promoted as an officer of the St. Louis, Iron Mountain and Southern Railway company, and on January 1, 1910, will assume the title and duties of assistant to the vice president and general solicitor as the head of the legal department of that company and its auxiliary lines in Arkansas.

He was formerly judge of the supreme court of Arkansas, is a gentleman of high character and a lawyer of marked ability. This appointment is made by Vice President and General Solicitor Martin L. Clardy and is approved by Vice President C. S. Clarke.

Vice President Clardy likewise announced yesterday that, effective January 1, Mr. J. F. Green is appointed assistant to the general attorney of the Gould lines, the Missouri Pacific-Iron Mountain in Missouri.

For eight years he was judge of the Twenty-first judicial circuit, and in July, 1899, he was made assistant attorney of the Gould lines, succeeding the late Graham Frost. He is a native of Missouri and is well known throughout the state.

## "A VERY NICE SHOWING"

That's What Editor Cundiff Says of the Christmas Edition.

John J. Cundiff, editor of the Capital, has the thanks of the management of the Democrat-Sentinel for the following in the Tuesday morning issue of the Capital in regard to the Christmas edition of this paper, issued Sunday:

"The Democrat-Sentinel of Sunday, Christmas edition, consisted of twenty-eight pages. Time was, and not so long ago, when such a paper would have been considered remarkable in Sedalia. But 'we are getting along,' and twenty-eight page papers may

soon be the rule. However, the Sunday edition of the Democrat-Sentinel was an achievement, something not only the publishers but the citizens may feel proud of."

The Best in Central Missouri. The Cole County Democrat, published at Jefferson City, in its Monday issue, says:

"The Sedalia Democrat-Sentinel came out with a big edition Sunday. The paper had twenty-eight pages of good live reading matter and some first-class advertising, all from home merchants. The Sedalia Democrat-Sentinel is the best paper published in Central Missouri. It fights for Sedalia continuously and consistently, and deserves the large patronage and excellent support it has."

## PLENTY FLOWERS

GREENHOUSE PRODUCTS OF VARIOUS KINDS FOR THE HOLIDAY TRADE.

## IS TO BE NO SCARCITY IN SEDALIA

Seems to Be Considerable Favor for Roses, but the Ever Popular Chrysanthemum Is Very Close Second.

From present indications there will be plenty of flowers and greenhouse products of all kinds to supply the holiday trade. No scarcity is anticipated, except what may be created by an exceedingly unexpected demand. Sedalia florists say that it has been a good season for growth of both flowers and plants and that the quantity and quality of them are better than usual.

Regarding what will be the fad for holiday floral decorations, there appears to be considerable favor shown for roses in all colors and varieties. The ever popular chrysanthemums are a close second. The beauty of the "mums" is that they come in all colors and can be made useful for any room of the house to conform to the decorations.

Of course, the royal decoration for the Yuletide is holly, as the holly wreath seems to lend itself to the holiday season just as it has done since the English speaking people began the observance of Christmas.

No drawing room is quite complete without the spray of mistletoe deftly tied to the chandelier. Local dealers have ordered in a goodly supply of Christmas greens, which will be shipped in from the southwest, where both holly and mistletoe may be had for the gathering.

## OLDEST NEWS BUTCHER

J. D. Lyons, 79 Years of Age, Resumed His Duties Today.

J. D. Lyons, the oldest news butcher in the employ of the Van Noy news agency, today resumed work on Missouri Pacific train No. 37, between Sedalia and Kansas City, after a ten days' layoff.

Mr. Lyons will be 79 years of age next March. and fifty-five years ago was running as a butcher between Cleveland, Ohio, and Pittsburgh, Pa. In those days he bought apples at 25 cents a bushel and sold them for 32 a bushel.

Mr. Lyons is hale and hearty for his age, and appears as active and alert as many much younger men.

## FIRE ORIGIN NOT KNOWN

Blaze in a Barn Owned by Charles Hoffman Today.

Fire of unknown origin was discovered in a barn owned by Charles Hoffman, situated in the rear of a house at 615 South Engineer avenue, at 10:45 o'clock this morning, and before the fire department had extinguished the blaze damage amounting to \$75 had been done. The loss is covered by insurance.

The barn was filled with baled hay, and in it were a horse and buggy owned by Harry Ruskin. The horse and buggy were removed.

The Ladies' Musical Club.

The Ladies' Musical club will hold its last meeting of the year 1909 at the Elks' club rooms at 9 o'clock tomorrow morning. The program will be in charge of Miss Mae Hunicle and Miss DeWitt. Members are privileged to invite guests.

## DEAD 3; INJURED 15

MIDNIGHT COLLISION ON THE LAKE SHORE AND MICHIGAN SOUTHERN RAILROAD.

## WAS RUNNING 60 MILES AN HOUR

Train En Route From Chicago to New York Crashes Into Lake Shore Passenger No. 10 Near Northeast, Pa.

Northeast, Pa., Dec. 14.—To determine the cause of a fatal wreck on the Lake Shore and Michigan Southern railroad, near here, last night, resulting in three deaths, an investigation will be held at Buffalo today.

Two of the dead have been identified as John Clair, aged 45, and Francis Barnard, aged 32, both of Cedar Point, Kan., who were on their way to France. The other was an Italian from California. Fifteen were injured, seven seriously.

Plunging through a blizzard, at a speed of sixty miles an hour, the St. Louis to New York Limited, on the New York Central, crashed into the rear of a Chicago and Boston special.

All the killed and injured were occupants of the rear coach of the special. None on the Limited was injured.

The Chicago and Boston special was halted here, owing to a breakdown on a train ahead.

When the train ahead was repaired the block was lifted and the Chicago-Boston train allowed to proceed.

At this minute the Limited was due and as there was no block against it, it continued at the usual speed, only to collide with the slow-going Chicago-Boston train.

## THANKS MR. FLOWER

Resident of Morgan County Glad Shoplifters Were Apprehended.

C. W. Flower, president of the Flower-Barnett Dry Goods company, received yesterday a letter from G. D. Ehlers, living in Morgan county, near where the Priemeyers, recently convicted of shoplifting in Sedalia, resided. Mr. Ehlers writes:

Stover, Mo., Dec. 11.—Mr. C. W. Flower, Sedalia, Mo. Dear Sir: Will write you a few lines to let you know that I am very thankful to you that you went after the goods which Priemeyers had stolen from you. I am glad that you were successful and that you found your stolen goods.

The reason why I am so thankful is that lots of stuff has been stolen from my mother for the past eight years. Mr. Priemeyer has such a reputation in that neighborhood for stealing. Many thanks to you and those who helped you. Yours truly—G. D. Ehlers, R. No. 1, Stover, Morgan County, Mo.

## KING OPERATED UPON

No Trace of a Tumor Was Found in the Intestines.

Brussels, Dec. 14.—King Leopold was operated upon successfully today. The surgeon found no trace of tumor, the presence of which in the intestines had been feared. His majesty's trouble was due to a simple obstruction. The king is resting quietly.

When, following the operation, the king regained consciousness, he was told of what had been accomplished, and he expressed satisfaction. He said he felt a marked relief.

The physicians are now more hopeful of the ultimate recovery of the royal patient.

The operation came in the nick of time, as the king's abdomen was so swollen that the only alternative of immediate relief was death.

## FELL DEAD AT STATION

Kansas Woman Who Was in Chicago Died of Heart Disease.

Chicago, Dec. 14.—While walking with a party of friends, Mrs. Mary E. Roscoe, the wife of a wealthy farmer near Great Bend, Kas., fell dead in the Polk street railway station last night, presumably of heart failure.

A St. Joseph Switchman Killed. Frank Blum, a Chicago, Burlington & Quincy switchman, was killed by a yard engine at St. Joseph, Mo., last afternoon.

triotism and jingoism are not syn-  
onymous. The people of this country  
as a whole are deeply patriotic, but  
they have an admirable sense of jus-  
tice and appreciation of the virtue of  
not going off half-cocked. Hence, they  
are not getting wildly excited over  
the Nicaraguan affair, in spite of  
Senator Rayner's tempestuous speech  
of yesterday, and notwithstanding  
Zelaya's personal immorality and pub-  
lic infamy.There is a suspicion in some quar-  
ters that there is an ulterior motive  
concealed in the effort to precipitate  
warfare between this great country  
and the weak little Central Ameri-  
can republic.It is known that New York finan-  
ciers have been and are acquiring  
valuable concessions in all the Cen-  
tral American republics. In many of  
these countries, including Nicaragua,  
so-called "American" parties have  
been created. The revolution in Nic-  
ragua is being financed from some  
source, and it is a natural inference  
that the source is Wall Street. It  
could not exist a day without strong  
financial aid. It is suspected that the  
ultimate outcome aimed at is annex-  
ation to the United States, a process  
which would richly line the pockets  
of the eminent American financiers  
and revolution promoters.Until the people of the United  
States have better assurance than  
has so far been vouchsafed them  
that there is not "a nigger in the  
woodpile" in the Nicaraguan affair,  
there will be no wide-spread public  
demand for United States troops to  
move on to Managua.**CHLOROFORMED.**That your Uncle Joe Cannon can  
be implicitly trusted to look out for  
the interests of his friends was proven  
shortly after the opening of con-  
gress. There will be no congressional  
investigation of the sugar trust, be-cause the speaker has willed that  
there shall be none.When a resolution providing for an  
inquiry into the sugar scandal by a  
joint committee of the house and the  
senate was offered, Uncle Joe refer-  
red the measure to the committee on  
rules, which was equivalent to refer-  
ring the matter to himself. Uncle  
Joe dominates the committee on  
rules absolutely. It is composed of  
five members, three republicans and  
two democrats, all of them being ap-  
pointees of the speaker, who is chair-  
man of the committee and one of the  
members.The two democratic members of the  
committee, of course, can do  
nothing against the majority. The re-  
publican members of the committee,  
besides the speaker, are Dalzell, of  
Pennsylvania, and Smith, of Iowa. Mr.  
Dalzell is a special friend of Senator  
Aldrich, who is a representative of  
the sugar trust in the senate. Mr.  
Smith will not cause any trouble. He  
will "go along" with Cannon and Dal-  
zell in smothering the resolution.  
This is not the only investigation  
already headed off by Uncle Joe, al-  
though the session has barely begun.  
A resolution providing for an investi-  
gation of the Ballinger-Pinchot con-  
troversy has also been chloroformed,  
because it would necessarily be un-  
comfortable for Secretary Ballinger.  
This resolution was also sent to the  
committee on rules, where it will lie  
in the sleep that knows no awaken-  
ing.What the speaker of the house has  
done in these two proposed investi-  
gations he may do with any other  
similar movements that may come up,  
as he has done with scores of like  
measures in the past. And if he  
should decide to appoint a committee  
on investigation he has the power to  
pack it with members of the house  
friendly to the interests to be investi-  
gated, to the end that a liberal  
coat of whitewash may be applied.  
Uncle Joe is supreme in such mat-  
ters, so long as he holds the speak-  
er's gavel. Not until Cannon is de-  
posed and his arbitrary rules amend-  
ed will the house of representatives  
be restored to the position it once  
occupied as an instrument of legisla-  
tion of the people, by the people and  
for the people.An esteemed republican contem-  
porary, published in the heart of the  
protection belt, the Altoona, Pa., Trib-  
une, protests against the quips and  
gibes of the newspaper paragraphers  
over the soaring prices of the neces-  
sities of life and declares it is no  
joking matter. "A man who can  
stand off and make jokes regarding  
the cost of living is either an irres-  
ponsible individual or a very wealthy  
one," declares the Tribune. "The bal-  
ance of us approach the matter with  
serious minds and heavy hearts. We  
do not know what is going to hap-  
pen." Our republican contemporary is  
quite right. And yet it is a staunch  
advocate and defender of the vicious  
system of protection, which has pro-  
moted the conditions it bewails, for  
the profit of the trusts at the ex-  
pense of the people.If, as Prof. Fisher, of Yale, affirms,  
man is worth \$90 at birth, there's a  
lot of him who would like to be born

## A BIG CHURCH SUIT

APPLICATION FOR AN INJUNCTION AGAINST CUMBERLAND PRESBYTERIANS.

### IT AFFECTS SEVENTEEN COUNTIES

Church of the United States Would Forbid Others From Retaining \$1,000,000 Property—Case in Federal Court.

Kansas City, Mo., Dec. 14.—An application for an injunction forbidding the Cumberland Presbyterian church from retaining property in seventeen Missouri counties has been filed in the United States circuit court here. The complainant is the Presbyterian church of the United States, through its officers, James M. Barkley, moderator of the general assembly, and William H. Roberts, clerk of the general assembly and secretary of the executive mission.

The case will be heard by Judge John F. Phillips in the January session of his court.

According to the petition, the Cumberland church became amalgamated with the other in 1905.

The merger, it is alleged, was according to law and with the consent of the management of both parties, but a certain dissenting faction not only refused to recognize the new arrangement, but also refused to give up the original church property, valued at over a million dollars in Missouri alone.

The petition further charges that A. M. Buchanan, W. Green, F. L. Clemens, J. W. Duvall and R. L. Layman, "representing the synod of the former Cumberland Presbyterian church of Missouri, have been engaged actively in inciting and furthering a conspiracy to take the property of the Presbyterian church of the United States for their own use and benefit."

The counties where the property is located are: Saline, Clark, Linn, Dent, Greene, Lafayette, Jackson, Chariton, Lawrence, Macon, Schuyler, Buchanan, Vernon, Bales, Randolph, Henry and Johnson.

## COAST AGAIN FLOODBOUND

Second Freshet Washes Out Railroads and Bridges.

Bellingham, Wash., Dec. 14.—Bellingham again was without train service yesterday. It will be some days before it can be resumed.

The lines had been opened but two days after being tied up for nearly two weeks by floods, when the second flood came down the Nooksack and Skagit river valleys.

The temporary piling bridge across the Nooksack on the Great Northern was carried out, and more than a dozen culverts and small bridges are gone. Many miles of railroad track are washed away. Floods threaten to destroy the town of Arlington.

## ARMY CAPTAIN GUILTY

Sentenced to 30 Months' Imprisonment for Embezzlement.

New York, Dec. 14.—Captain Thomas Franklin, U. S. A., twice commended by General Chaffee and General Otis for distinguished service in China and at Manila, pleaded guilty yesterday to a long series of petty embezzlements from the mess fund.

## A BROKER TO PRISON

The Sentence of Wallace Hopkins Almost the Maximum.

Chicago, Dec. 14.—Wallace H. Hopkins, a broker, convicted of using the mails to defraud, was sentenced here yesterday in the federal district court to serve four years and three months in the federal prison at Leavenworth, Kan.

The term is within three months of the maximum sentence which could be imposed, and in addition, Hopkins was fined \$1,500.

As president of the Wallace H. Hopkins Co., Hopkins was charged with defrauding customers out of \$250,000. The case may be carried to the federal circuit court of appeals.

His counsel gave notice that he would apply for a writ of error and review.

As commissary and treasurer, Captain Franklin had charge of the pay checks of the cadets, which he deposited with the United States treasury in this city, and drew against for mess supplies.

The total amount of his defalcation ran to \$5,650, of which \$4,831 was represented by false vouchers, presented for approval to the superintendent of the United States military academy.

## WOMEN RAID A PIT

"SUFFRAGETTES" DISTURB THE TICKERS IN THE BOSTON EXCHANGE.

### THE "TRADERS" WERE HORRIFIED

Found Themselves Holding "Votes for Women" Literature Instead of Margin Memorandums—One Pretty Woman Put Out.

Boston, Dec. 14.—Suffragettes invaded the Boston stock exchange and the Chamber of Commerce yesterday. "Votes for Women" literature was whirled broadcast upon the floors, and startled stock and grain traders found themselves holding suffragette literature in their hands instead of margin memorandums.

The climax of the excitement came when Miss Gertrude Cliff, as charming a suffragette as ever rose against man, was gently, but firmly escorted from the center of the wheat pit in order that the process of the grain market should not be upset. And the gaze of every grain broker followed Miss Cliff's pretty face and graceful figure out through the door.

"So she's a suffragette," said many a grain trader. "Geel!"

The raid was conducted by Miss Margaret Foley and Miss Cliff. Fearing that they might be stopped at the doors of the trading floors, the women hired ten messenger boys at the main office of the Western Union.

At the Chamber of Commerce they caught the doorman off his guard and the messengers shot in through the gateway onto the floor and distributed circulars right and left.

"Dear me, now!" exclaimed the nervous old lady, with the 17 packages and the parrot, bound for Cockie-on-the-Shell. "What did the guard say was the next station? Did he say Cockie-on-the-Shell?"

"Excuse me," remonstrated the girl from Gorton, "You mean what is the next station. It's still a station, you know."

"You're wrong, madam," interposed an octogenarian. "What is was, isn't it?"

"Is it was?" asked the Gorton girl sharply.

"Don't be ridiculous!" snapped the old lady. "Was may be is; but if was was is, then is isn't is, or was wasn't was." She passed her hand across her fevered brow. "If was is, was is was, isn't it?" she continued. "But if is is was, then—"

"Listen!" interposed a fifth. "Is is; was was; was was was; is is is."

"Oh, well, anyway," cried the old lady, "is the next station my station—Cockie-on-the-Shell?"

"No, madam," replied the octogenarian. "But it was. We have just gone by it!"—London Answers.

## GEMS IN A PAWNSHOP

Police Reject the Theory That They Were Stolen.

New York, Dec. 14.—Sceptical and analytically inclined detectives, after a day of investigation, style as an "Arabian Nights Mystery" the reported theft of jewels from the Hotel Lorraine in this city, in which Mrs. John William Jenkins, of Chicago, at first appeared as the loser of jewels valued at \$300,000.

This value was later cut in half, while subsequent inquiry brought from Inspector McCafferty, of the detective bureau, the announcement that "we are making a thorough and rigid investigation into the case, but not along the lines of a robbery."

Mrs. Jenkins remains in seclusion in her apartments. Her husband, it is said, is out of the city. If stolen, the jewels were taken from her room

during her absence on Saturday afternoon last.

A description of them has been sent to pawnshops throughout the city, and it is understood that part of the consignment has been traced to three different shops.

The police are reticent about this feature, although it is understood that the articles were pawned several days before the robbery was reported.

## HEED THE WARNING

Many Sedalia People Have Done So.

When the kidneys are sick they give unmistakable warnings that should not be ignored. By examining the urine and treating the kidneys upon the first sign of disorder, many days of suffering may be saved. Sick kidneys expel a dark, ill-smelling urine, full of brick-dust sediment and painful in passage. Sluggish kidneys cause a dull pain in the small of the back, headaches, dizzy spells, tired, languid feelings and frequently rheumatic twinges.

Doan's Kidney Pills are for the kidneys only; they cure sick kidneys, and rid the blood of uric poison. If you suffer from any of the above symptoms you can use no better remedy.

Sedalia people recommend Doan's Kidney Pills.

Mrs. Julia Crawford, 302 E. Seventh St., Sedalia, Mo., says: "I do not know what I would have done had it not been for Doan's Kidney Pills. For some time I was troubled by attacks of kidney complaint and was often laid up. I had severe pains in my kidneys and the secretions from these organs became irregular in passage and contained a sediment. Colds always aggravate my suffering. Doan's Kidney Pills which I procured at Bard's Drug Store, have never failed to go to the seat of the trouble and drive away the attack. I do not hesitate to give this remedy my endorsement."

For sale by all dealers. Price 50c Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Denver, Dec. 14.—W. C. Smith, former speaker of the Colorado house of representatives, has brought suit for \$50,000 damages each against Judge Benjamin B. Lindsey, of Denver, and Harvey H. O'Higgins, a magazine writer.

Smith alleges defamation of character in a series of articles now running under the caption of "The Beast and the Jungle," in an eastern magazine.

The articles, which claim to be a history of inside politics in Denver for the last few years, were prepared by Mr. O'Higgins, the material being obtained from Judge Lindsey.

### THE CUTS OF MEAT

IN SOME OF THE HOTELS IN THE WEST ARE TO BE CHEAPER IN THE FUTURE.

THIS IS NOT ALONE FOR ECONOMY

Owners of Hotelries, Who Foot the Bills, Say This Kind of Meat is More Palatable and Also More Nutritious.

Denver, Dec. 14.—It has become known that the hotel keepers of the west, following their annual meeting here last week, have decided upon a plan to use cheaper cuts of meat.

Economy is, of course, the principal object, but the hotel men defend their proposed action by the statement that such meats are really more palatable and nutritious than the more expensive cuts. Whether guests will look upon the matter in this light remains to be found out.

According to a local hotel manager, one of the hardest and most expensive problems with which a hotel keeper has to contend is the putting to use the cheaper cuts of meat, such as the shoulder and the neck.

"The American public demands only the finest cuts of meat," he declared, "while they would receive much more nourishment and save money by purchasing the cheaper cuts.

"The people in Europe make palatable dishes out of meats that Americans would not buy. We hope to be able to educate our chefs and housewives to make proper use of these despised meats, and think that when once the value of them is known they will be used where the higher priced meats are now used."

It is proposed that a special series of instructions be prepared for the benefit of the chefs, at which the use of the cheaper meats in the preparation of stews, beef a la modes and other dishes where the meat is not seen will be explained and taught.

### AMUSEMENTS

AT THE SEDALIA THEATRE.

"Lena Rivers."

The play "Lena Rivers," which came to the Sedalia theater Saturday, matinee and night, is a dramatization by Beulah Boynter of the novel that name, written in 1859 by Mrs. Mary J. Holmes.

This famous writer was still living until last winter and doing active literary work, though mostly in the line of short stories for the popular magazines. One of the large commentaries, in speaking of Mrs. Holmes, says: "Mrs. Holmes is probably the greatest moral writer that we have." And this very fact of her moral writings is largely accountable for her large following. She never sought to increase the sale of her books by writing vulgar nothings and calling them "problem" books, nor has she catered to the sensation-loving class.

Over 10,000,000 people have seen Beulah Poynter's dramatization of "Lena Rivers" in the past four years. "Lena Rivers" is a beautiful story of the south, its life and manners, interspersed with exceedingly funny comedy.

"The Great John Ganton"—Sedalia Theater Friday Night.

Readers of this paper have doubtless noted with interest the coming to the Sedalia theater of "The Great John Ganton," a drama which is laid in the stock yards district of Chicago. The play has had a long run at the Lyric theater in New York. It has been written from Arthur Eddy's novel, "Ganton & Co.," which was said by reviewers to be a reproduction, in part, of the life of the late Phil Armour. Some objection was made originally to the book on this account by certain of Mr. Armour's friends, but no suits were filed and the book gained a wide circulation. The stage story adheres faithfully to the written narrative, and presents John Ganton as a forceful and domineering character. The first scene is laid in the stock yard offices of Ganton & Co. There is a strike in progress and the old man is in the thick of the battle. How John Ganton deals with labor problems will be interesting to local business men.

Of course, there is a love story. The principals are John Ganton's college bred son May Keating, the daughter of a man that John Ganton years before drove to bankruptcy and suicide. The old man's objection to the match can be understood. It causes a rupture between him and his son and results in the boy being thrown out of the firm. How circumstances result in the reinstatement of the boy and the father's consent to the marriage is engrossingly told as the story unfolds itself.

This play has been one of the big successes of the season in New York and is likely to cause something of a sensation upon its first production in this city.

AT WOOD'S OPERA HOUSE.

Charley Grapewin.

Wood's opera house, Friday evening, December 17.

Mr. Grapewin's new play, "Above the Limit," is the funniest he has ever had. The principal character is Jimmy Hicks, a poor boy of the slums, with an incessant flow of slang. He meets a wealthy girl and falls in love with her, but realizing the difference between them, makes up his mind to gain an education.

He goes abroad in the capacity of manager for his brother, who is a jockey for a millionaire turfman, and devotes his time and efforts to uplifting himself. Five years elapse and during time Jimmy succeeds in accomplishing his object. He returns to America a polished gentleman, meets the woman who has been the inspiration of all his labor and ambition, and presses his suit for her hand. She, realizing the innate strength and manhood of the man, falls in love with him, and all ends happily. There is a strong plot, and Jimmy proves himself a hero and diplomat on several occasions.

### SEVEN LIVES ARE LOST

Twelve Families Trapped in Fire—Woman Jumped With Child.

Cincinnati, Dec. 14.—Two women, two men and three children were killed and seven other persons were severely injured in a tenement fire at Third and Sycamore streets last midnight.

The fire was in a building which was occupied by twelve families. It was caused through the upsetting of a kerosene lamp. Nearly all of the occupants were asleep and before the fire was discovered all egress was cut off.

The tenants gathered in the windows and climbed to the roof, whence

they jumped into blankets held by the police and firemen.

An unknown woman, clasping her 8-year-old son in her arms, sprang from a third floor window and both were killed.

Six men fled to the roof and were about to leap to the street when they were reached by firemen, who had to use force to prevent them from jumping.

## HOSPITAL IS CLOSED

Two Ward Schools Dismissed Because of Water Famine.

Carthage, Mo., Dec. 14.—Because of the scant water supply the Carthage hospital was closed yesterday, the patients being sent to private homes and one to Kansas City. Two of the ward schools were dismissed until an adequate supply of water can be had.

In the portion of the city that is covered by the municipal mains the water supply is being rapidly solved by the combined work of every available laborer and many citizens.

In a few more days the connections in this district will all be made, but in the meantime the inconvenience of getting water in other portions of the city is becoming tiresome.

However, the anger at Lighthouse of the waterworks company, who cut off the supply, is so strong that there is no disposition to make terms with them, and citizens say they would rather risk the loss from possible fires than to yield a single point.

## SCOTLAND'S EARLY RECORDS

Indebted to the English for Only Authentic Accounts of Early Social History.

Scotland also has her Doomsday Book, dating, however, only from the thirteenth century. When the Bannatyne club published the records, about 70 years ago, under the modest name of "The Ragman Rolls," Scotland awoke to the disagreeable knowledge that she was indebted to the English for the only authentic accounts of her early social history. Nobles, landholders, burgesses and clergy all contribute to the interest of the Ragman Rolls. As the preface declares: "No part of the public records of Scotland prior to the thirteenth century has been preserved, and whatever may have been their fate, certain it is that to these English records of our temporary national degradation are we now indebted for the only genuine statistical notices of the kingdom toward the close of the thirteenth century."

## THE MAN AND THE CHICKEN

Many of Our Readers Doubtless Will Understand the Feelings of the Human Biped.

In the back yard the man stood and regarded a spring chicken with enmity. It was called a spring chicken because of its size, the season being summer, and a hot season at that.

The man greatly desired to encompass the destruction of the spring chicken, both as regards its annoying presence in the back yard and in gastronomic way, but the spring chicken had just shown these by diving through a bottomless box to safety while the man fell over it and scraped his shins badly.

"Confound the chicken," said the man, or words to that effect. "I'll catch it yet." With outstretched arms he guided the alarmed bird into a fence corner.

"Ah-h-h-h!" It dived to the right; so did the man. It dived to the left; so did the man. It dived between the man's legs and the man tried to do the same, but failed—failed miserably. "Confound the confounded chicken," said the man, or words to that effect. Limping a bit, but with set jaws, the man pursued the spring chicken. Along the fence he drove it cautiously, seeking to get it in a corner. The spring chicken suddenly ducked and disappeared into the yard of a neighbor. The tall grass had concealed the hole.

The man hooked his chin on the fence and looked over.

"Confound the ding-blasted, hypercritical, yellow-legged monstrosity," said the man. Or words to such effect. Then he swung a leg across the fence and pursued the chicken. Into the barn it went, and so did the man. There was a feed cutter in the barn, and though it was dark the man found it. Then the chicken ducked again and joined the flock of fowls in which the man had no interest whatever and whose quietude he deemed it best not to disturb.

He swung his leg across the fence again and dropped heavily on his own side, turned and rested his chin on the fence and gazed at the spring chicken which, having found congenial company, was taking dinner with it.

"Plague take the ding-blasted, feather-legged, goose-necked imp of evil," said the man.

Or words to that effect. And the chicken placidly stuffed itself.—Galveston News.

## THE RULING PASSION STRONG

Physical Discomfort Counted Little as Opposed to Miser's Love of Wealth.

Dr. Charles McCormick, the physician who says that "the man with the grouch" can not resist disease like his more contented brother, referred again to this assertion at a recent dinner.

"The man with a grouch," said he, "is gloomy, and gloominess brings on ill health, weakness, dyspepsia. A confirmed grouch can't be got rid of. A grouchy person is governed by his grouch as a miser is governed by his meanness. And when it comes to misers!"

Dr. McCormick laughed. "A little, lean, pale miser of Pecos," he said, "was one evening observed fighting with the town blacksmith. Though his nose was bleeding and one eye was closed, the miser fought determinedly. The hurculean blacksmith planted blow on blow, but the little miser never bulged an inch. 'Run, ye fool!' hissed a friend. 'Ye stand no chance here. Run!'

"But the little miser, as he received heorically a smashing left hook, answered in a low voice: 'Run! Nix! I've got my foot on a 10-cent piece.'"

## VERDICT FOR PLAINTIFF

Case That Has Been In the Local Courts Since 1905.

A verdict for the plaintiff was rendered in circuit court late Monday in the case of G. S. Hayden vs. Mr. and Mrs. C. W. Goodwin for possession of a three-foot strip of land, on Engineer avenue, between Fifth and Sixth streets, which suit has been hanging fire in the Missouri courts for the past four years.

Shain & Barnett represented the plaintiff, while Sangree & Bowling and W. D. Steele represented the defense.

The suit was brought in this county in 1905. A verdict for the defendant was secured. Appeal was taken to the supreme court and in the early part of this year was reversed there and remanded here for trial.

St. Louis, Dec. 14.—Mrs. Blanche Clayton Hopkins, widow of the late Col. John D. Hopkins, veteran theatrical man and the father of the modern continuous show, filed suit in the circuit court yesterday against her two step-daughters, Emma May Hopkins and Ethel Hopkins Bergeron, and Anton C. Steuwer and Theodore Rassieur, trustees, for her share of \$40,000 worth of stock in a realty company transferred by Col. Hopkins to his daughters through the trustees shortly before his death. Col. Hopkins died at the Jewish hospital October 24 last.

## GIRL ATTEMPTS SUICIDE

Had a Quarrel With Fiance and Shoots Herself in Breast.

Danville, Ill., Dec. 14.—Standing on the porch of her home in Washington avenue and looking after her sweetheart, who was driving away, Eletha Edwards, 19 years old, shot herself in the breast late last night. Today she is dying.

The girl had gone riding with Fred Bath, to whom, it is said, she was engaged to be married. They quarreled and he drove back to her home.

Miss Edwards asked Bath to wait a few minutes, but when she returned to the door he was driving off. She had brought a revolver down from her room and with it she shot herself.

DEMANDS FOR ZELAYA'S RESIGNATION GROWING MORE INSISTENT.

### POPULACE AROUSED TO FRENZY

In urgents Under General Morales Have Taken Heart and Won a Victory—Are Now Marching to Attack Important Town.

Managua, Nicaragua, Dec. 14.—Rebellion has broken out at Managua. The streets are filled with unrestrained demonstrators, and shouts of "Long Live Liberty, United States and Estrada," fill the air.

The police have made no move to check the mob. It is said Zelaya has promised to make public today the announcement of his resignation from the presidency.

Managua, Dec. 14.—The climax in the anti-Zelaya feeling was reached last night when the government attempted to put a bill through congress conceding to certain exploiters mining rights covering vast areas, irrespective of the private ownership of the surface of the property.

Fiery speeches opposing this measure threw congress into a turmoil. The news quickly spread outside and

the streets were soon full of demonstrators against the movement.

Bluefields, Nicaragua, Dec. 14.—An official telegram received at the insurgent headquarters here announced that General Morales, at the head of a band of insurgents, had captured Tortuga Crisi and Supoa on the Costa Rican frontier, proclaimed Estrada president of Nicaragua and has continued his march to attack the important town of Rivas.

The insurgents have taken heart at the prospect of assistance from the United States and are looking forward to a general engagement that will result in a decisive victory for the insurgents.

## NEWS OF THE RAIL

BIG FOUR TELEGRAPHERS OPPOSE THE NEW SYSTEM OF TELEPHONES.

### COACH, CAB AND CABOOSE ITEMS

Matters of Interest Picked Up From Various Sources for the Benefit of Democrat-Sentinel Readers.

That the ultimatum of the Order of Railway Telegraphers, which will be sent to the Big Four officials within the next few days, has been arranged, and that it will be forwarded to them before Wednesday evening, was learned here last afternoon at the headquarters of the organization in Cincinnati.

Fourth Vice President J. J. Dermody said the vote is overwhelmingly for one side, and he gave the name of this side in these words, "and we are certainly not going to stand for this matter of low wages and a new system of telephones any longer."

He says the telephone system being used is of good value, and that if the road continues to adopt it before long the telegraphers will be out of jobs entirely. The vote is said to be about 95 to 5 out of every 100 for the strike.

Mr. Dermody said last afternoon that the road has been telling the operators of the telephones that it will not stand for their being in the Telegraphers' union, and that his union has now been telling them the other side of the same matter.

"Our organization is very strong," said Mr. Dermody, "both as to numbers and financial backing. We have not asked for another conference with the officials and probably will not do so."

### Motor Cars for St. Joseph.

Reports are still very much in evidence that the Burlington will establish a motor car service on its branch lines out of St. Joseph as soon as cars can be obtained.

The company has a plant in Nebraska that is busy manufacturing cars, and some of them may be used for the service there.

The St. Joseph Business Men's league is making a specialty of working for motor lines on all railroads entering the city. In this the league has been successful in a number of instances which have been very successful in attracting business to the city.

Several of the motor lines will probably be extended in the near future.

### SALOON THOUGHT NO. 261.

U. S. Labor Commissioner C. D. Wright, after much investigation, tells us that every dollar that the government receives from the liquor traffic costs the government \$21.00. The criminal cost for every citizen of the United States, which is directly due to the liquor traffic, is a cost of \$4.34. Think how many people there are in your family; multiply this by \$4.34 and it gives you an idea of what the government has to pay every year, caused by the saloon, and we have to foot the bills. The liquor business is the most gigantic cost in actual dollars and cents that this nation could think of. Is it any wonder the nation is in debt? Is it any wonder that Sedalia is in debt? Is it any wonder that Pettis county is in debt? Is it any wonder that Missouri is in debt?

### The Switchmen's Strike.

Rumors that President Gompers, of the American Federation of Labor, had recommended a compromise to President Hawley, of the Switchmen's Union of North America, was partly confirmed by a member of the strike committee in St. Paul last night, who said that a compromise was being considered on the following basis:

Wages, three cents an hour increase, instead of six cents asked.

Overtime, time and a half instead of double time, holidays and Sundays to be included as overtime.

Age limit and physical examination, they to be modified to a limited extent instead of radical changes.

President Hawley declined to make any statement.

### LOCATE BLUEFISH BY SMELL

But Scenting Them and Catching Them Appears to Be Two Different Things.

"Ah!" said the skipper out with a party bluefishing, turning his face to windward as he spoke, and at the same time throwing the wheel over and bringing the boat up and putting her off on the other tack, "I smell them!"

"You smell them?" said one of the party in the boat. "Do you mean to tell me you can smell the fish?"

"Why, certainly," said the skipper, as he got another little pull on the sheet, "or you can smell where they are, which amounts to the same thing."

"You see," the skipper continued, "the bluefish is a voracious feeder—very voracious; he will eat about a million of the little fishes that you find around so plentiful in the water, put there apparently for bigger fish to feed on, and when he has gorged himself on about a million, more or less, of these little fishes, the bluefish will settle down on the bottom and there digest them; and this digested food, oily, floats up to the surface, and that you can smell, and it means bluefish! and I can smell them now, sure." And so speaking, the skipper got an inch more of the sheet and peered ahead and kept her a-going with every inch drawing, just a-humming and a-boiling, keen on the scent.

And did the party come up with the bluefish and catch lots of them? A boatload of fish? Keep hauling them in till they all got tired of fishing? Well, that—as a once celebrated English writer has so aptly remarked—that is another story; scenting bluefish and catching them being two quite different things.

## THE DR. CASTO MEDICAL COMPANY

SEDALIA'S LEADING SPECIALIST  
THE PHENOMENAL SUCCESS OF OUR MODERN AMERICANIZED EUROPEAN METHOD OF PAINLESS, BLOODLESS SURGERY TREATMENT FOR FEMALE DISEASES HAS GAINED A WIDE REPUTATION. PATIENTS COME FROM OTHER STATES TO SEEK OUR AID. BUT OUR BEST FRIENDS ARE THOSE WE CURE AT HOME. READ THE FOLLOWING MOST EXTRAORDINARY HOME TESTIMONIAL:

### TUMOR CURED WITHOUT THE KNIFE

MR. AND MRS. LEE, 916 WEST FIFTH STREET, SEDALIA, MO.

Mrs. Lee, residing at 916 West Fifth street, is a very estimable and highly respected lady, who has a host of friends that are much surprised and greatly delighted at the remarkable and most extraordinary cure she has received while taking a course of our famous painless, bloodless surgery treatment for female disease. Mrs. Lee is widely known, having resided in this city for over thirty years, and we take pride in our great achievement.

In restoring her to health. Our cure should challenge the admiration of the medical world, for the like was never accomplished before, but by our new discovery, we were able to absorb a tumor as large as a turkey egg attached to the womb, without pain, operation or the use of the knife. Mrs. Lee is a good and noble woman and fearlessly comes forward and proclaims her affliction, telling what has been done for her, all for the benefit of her suffering sisters.

It has now been over a year since Mrs. Lee was cured by Dr. Casto and during that time she has had unusually good health. Call on her, write her or phone to her, Bell phone 1946. She will be glad to tell you about her case.

Dr. Casto, Chief Physician of the Dr. Casto Medical Co.

I know it is a delicate subject for a lady to express her troubles to the public, especially for one who has suffered as I have, but I feel so deeply indebted to you and so grateful for the wonderful cure you have performed that I feel it my duty not only to you but to all suffering sisters that I should do all I can to make known what you have done for me. Some two years ago I began to have severe flooding spells and nothing I could do gave me any permanent relief. I consulted the best physicians here and finally sent for a specialist from Kansas City, who examined me and told me I had a severe case of Fibroid Tumor of the Uterus. I was treated at home for a number of months and afterwards went to Kansas City, and was treated there for some time by this specialist, but I gradually grew worse and was told that I would have to submit to an operation and advised me to go to a hospital. I came home and had lost hope, as I was so weak that I could do nothing, but as a last resort I consulted you, and when you told me you could cure me without an operation or the use of a knife, I was so impressed with your assurances that I immediately began treatment, and I am certainly overjoyed and more than thankful, for you have done all you said you could and my tumor has entirely disappeared. I now feel like a new person. It will always be a pleasure to me to answer all inquiries and correspondence from all suffering sisters.

Yours most gratefully,  
MRS. ZORA M. LEE.

## Weak Women—Women's Department

LADY ATTENDANT  
We pride ourselves on our great achievement in restoring the gentler sex to health, strength and beauty; a clear, rosy complexion denotes perfect health. It is the health of the wife, the mother and daughter that mars or makes the happiness of home life. Many suffer in silence and drift along from bad to worse, well knowing they need medical attention.

THE CAUSE is readily traceable to some derangement of the female organs, chief of which are a depression of spirits, melancholy, a reluctance to perform cheerfully the daily duties, backache, dragging sensation, unnatural discharges, irregularities, pain in the back, sides, breast, neck or head, nervousness, bloating and sleepless nights, discoloration around the eyes, liver spots, blotches, muddy complexion. One or all of these symptoms are but timely warnings and if unheeded a life of suffering with serious complications is the inevitable result. To all such sufferers we extend a helping hand. Our modern method of examination and manner of procedure is without exposure; our consultation free; our special home treatment for ladies works the most happy results, put up in mailable form for those who can not call.

THE CRITICAL PERIOD OF WOMAN'S LIFE—The most dangerous and critical period of a woman's existence is during change of life, and if you have been a chronic sufferer, beware, cancer of the breast or womb, ovarian tumors, polipi, ulcerations, etc., all stand ready to wreck your hopes of a ripe old age; and to those of you who have already encountered these terrible wreckers of happy homes, we bid you hope, for it is on these malignant and deep-seated diseases that we have concentrated all our energies for years and have so perfected our methods that we cure absolutely and permanently without operation or the use of the knife, advanced cases of cancer, ovarian fibroid and uterine tumors, together with all other complications arising therefrom by our modern Americanized European method of Painless, Bloodless Surgery Treatment for Female Diseases. Our sanitarium connection enables us to accept cases that need constant attention and those who are unable to come to our offices regularly. If you can not call, write for further information.

### To All Who Suffer

### RUN DOWN BY AN AUTO

Prominent Citizen of St. Louis Dies  
of His Injuries.

St. Louis, Mo., Dec. 14.—Theodore R. Ballard, former president of the Merchants' Exchange, former member of the police board and one of the most prominent democrats in St. Louis, was fatally injured by an automobile running thirty miles an hour at Spring avenue and Washington boulevard about 6 p. m. yesterday and died twenty minutes afterward.

George Gebhart, 18 years old, employed as a demonstrator by the C. F. and J. R. Brown Automobile company, 5143 Delmar boulevard, was arrested at the company's garage about an hour after the accident, and is being held at the Manchester avenue station pending an investigation of the fatality.

Gebhart stood at the foot of the bed on which Mr. Ballard lay dying, after having brought him to his home, 3830 Delmar boulevard, in the same touring car which ran him down, and as the physicians pronounced the victim dead, Gebhart collapsed in a

chair, buried his face in his hands, and burst into tears. "What will my mother think?" he repeated, several times.

Mr. Ballard was the father-in-law of Ben P. Goodwin, son of J. West Goodwin, of this city.

### POISON IN THE COFFEE

Woman Has Maid Try Drink, Which  
Nearly Kills Her.

St. Joseph, Mo., Dec. 14.—Sufficient strychnine was deposited in a pot of coffee at the home of Robert E. Hastings yesterday to kill fifty people. The coffee was served to Mrs. Hastings, who has been ill for some time.

Mrs. Hastings discovered something wrong with the coffee and invited her maid to take a cup of the coffee and pass her opinion.

The maid did so, and in a few seconds fell over on the floor unconscious. Prompt medical attention saved her life.

Mrs. Ella Hartridge, a cook, who had been given notice of a discontinuance of her services, is detained at police headquarters pending investigation.

She came to St. Joseph from Seneca, Kas., a month ago. Mrs. Hastings is a daughter of a wealthy wholesale merchant, John S. Brittain.

## THE BOMB SUSPECT

EDITOR OF THE CENSOR SAYS  
HE TOLD POLICE NAME  
OF INDIVIDUAL.

### POLICE MAKE EMPHATIC DENIAL

Say They Have Had No Information  
From Man Whose Office Was  
Wrecked—Editor in Conference  
Later in the Day.

St. Louis, Mo., Dec. 14.—That the blowing up of the offices of the Censor, a salacious weekly paper, and the subsequent attempt to wreck the home of Harry B. Wandell, a reputed tipster of the Censor, were due to the instigation of a man formerly prominently identified with horse-racing in and around St. Louis and once a grain broker, is the theory on which the police will work in an effort to clear up the mystery.

George Coleman Dyer, proprietor of the Censor, said Monday that he gave the name of this man to the police.

At police headquarters this was vigorously denied. Chief of Police Creedy and Chief of Detectives Smith said that Dyer had not given them a clue.

"I have given the name to the police and they have advised me to refer all inquiries to them," said Dyer.

Less than two years ago the man Dyer suspects gave up his office in St. Louis and established an office in New York.

It is known that he has recently been in St. Louis.

An hour later at Dyer's office it was said that Dyer was in conference with a former race track man and broker and his partner at the offices which the suspected man occupied when he was a St. Louis broker.

Inquiries at the brokerage office showed that Dyer and the other two men had been there. It was said they had gone to the office of another broker who had not been mentioned in connection with the explosion and who formerly was prominent in St. Louis society.

Dyer says that he believes that a "story" published in the Censor a year or more ago led to the explosion. It was about a former St. Louis broker, whose wife obtained a quick divorce here.

Shortly after the divorce, following a journey to Paris, this broker married a second time in New York.

A story about the second wife, outlining her former career as an artist's model in St. Louis, appeared in the Censor.

Dyer told the police that a certain St. Louis lawyer called at the Censor office and tried to find out who wrote the article, but that Editor A. J. D. Stewart refused to give him the information.

Among the scattered papers found in the Censor office after the explosion were check books whose stubs showed that Dyer had been a trader in the brokerage office of the man to whom suspicion is said to point.

There are also letters written to Dyer by his subordinate telling of letters received from indignant St. Louisans whose names had been mentioned in the paper and of visits by others who believed that certain scandalous articles referred to them.

The Censor has been denounced by many St. Louisans because of its practice in printing anonymous articles containing gossip and scandalous accounts of the lives of persons high in the social and business life of the city.

These appeared under a caption showing that they were written by "The Porch Climber."

Names were rarely used in these articles, but descriptions and circumstantial details were given which were supposed to afford a clue to the identity of the persons about whom the salacious articles were written.

Premises were paid for information of this kind and the identity of

the tipsters was carefully concealed. That Harry B. Wandell, who was city editor of the St. Louis Star until Saturday night, was one of these tipsters was indicated after the explosion in Dyer's office Saturday night, when letters and check stubs identified him as one of those who had been supplying the paper with gossip.

Wandell was attacked while entering the Star building at Twelfth and Olive streets three weeks ago. A man lay in wait for him in the lobby and struck him in the face.

A few minutes later a woman called the Post-Dispatch office and said she witnessed the assault, and that she heard the man who struck Wandell say to him, "I'll teach you how to insult my sister."

Dyer says the explosion will not stop the publication of his paper.

Kansas City, Mo., Dec. 14.—U. S. Apple, a Christian Scientist, of Winfield, Kas., sat in union station yesterday apparently suffering. But he refused every offer of medical assistance, because he said he felt the power of prayers offered 300 miles away working a cure of his frozen face.

With his eyes almost closed, his face swollen and one ear withered from the blasts of a Nebraska blizzard, Mr. Apple left a Missouri Pacific train from Omaha yesterday. He sat three hours in the station waiting for a train for Winfield.

He had been traveling in Nebraska for a Chicago firm. With the thermometer 15 degrees below zero, his face was frozen last Tuesday while he was walking from a station to a hotel.

Yet his faith in Christian Science remained true. A doctor he would not see. When sympathizing friends tried to make him go to a hospital here, he would reply in a voice apparently full of pain:

"My faith will make me whole. Bring no doctors for me. I do not believe in them. There is only one

Springfield Claims to Have a Very  
Low Death Rate.

Springfield, Mo., Dec. 14.—Dr. C. E. Woody, city health commissioner, says the death rate in Springfield is much lower than the average figures for other cities in the country. Therefore the doctor asserts that Springfield is one of the best cities on the map in which to live if a person desires good health and long life.

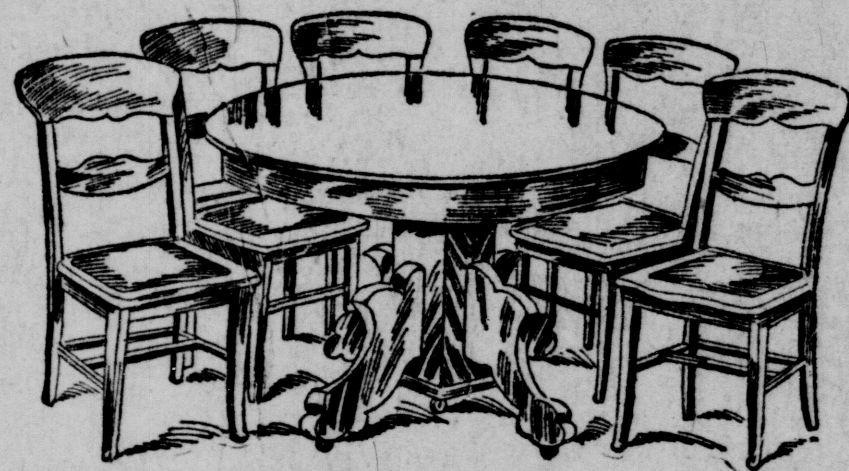

The average death rate, he says, is 12.7 for every 1,000 inhabitants, based on a population of 35,000. The population is nearer 40,000, which would make the rate even lower. The average death rate is 15.3 to every 1,000 inhabitants.

## THE NEW MANAGER

"JACK" O'CONNOR, HEAD OF THE ST. LOUIS BROWNS, IS IN NEW YORK CITY TODAY.

### HIS OFFICIAL COMING-OUT PARTY

He Will Be Called Upon to Pass on Several Propositions for Trades of Players—Some Old Timers Are Likely to Go.

St. Louis, Dec. 14.—Jack O'Connor, the new manager of the Browns, will occupy more than his share of the limelight in the big pow-wow opened today in New York.

His appearance in the metropolis will be his official coming-out party, when he will make his formal debut and will get his first real test as manager of the St. Louis Browns.

O'Connor's career as a manager will be followed with much interest, not only in St. Louis, but in other cities around the big league circuit as well, as he has it in his power to change the baseball map around to considerable extent.

O'Connor is to be in the spotlight for two reasons. The first is that it is generally understood that the Browns have not a little material that the management will part with in order to start building up the club in the right way next year.

This means that Jack will be called upon to pass on a lot of propositions for trades and purchases, as few, if any, of the veteran managers are going to allow another manager to get past without trying to put something over on him.

While Hodges must, of course, pass on deals for players, he has the reputation of allowing his manager to put through anything he thinks is best, and he will not block O'Connor in an attempt to get a good start toward a better team by trading off some of the old-time players of the club.

Will Understand Some Time.

The following story of Rev. J. Ross Stevenson, formerly pastor of the Broadway Presbyterian church of Sedalia, is told by the Advocate:

Rev. J. Ross Stevenson, pastor of the Fifth Avenue Presbyterian church of New York, told a story on himself during a recent visit to Chicago.

"I was to preach as supply in an interior Illinois town," said Dr. Stevenson; "and before the service began I was approached by the leader of the choir. 'It has always been our custom,' she said, 'to render a song appropriate to the sermon immediately after the address of the morning.'"

"I asked her if they had a large se-

## Woman's True Friend

Experimenting with new and untried medicines is foolish, and often dangerous. It would take a medicine more than forty years, to prove itself so universally good as Dr. Pierce's Favorite Prescription. During all that time it has been woman's favorite medicine—a restorative tonic, uplifting and invigorating the nervous and discouraged and giving them the final touch of perfect health.

Women use Dr. Pierce's Favorite Prescription in preference to all other advocated medicines for it contains no alcohol or habit-forming drugs—is not anything like advertised, secret, or patent medicines—does not claim to be able to do impossible things.

**THE ONE REMEDY** for women devised by a regularly graduated physician of vast experience in woman's ailments, and adapted to her delicate organism.

**THE ONE REMEDY** good enough that its makers are not afraid to print its every ingredient on its outside wrapper.

You can't afford to allow yourself to be over-persuaded into accepting any secret nostrum as a substitute for this honest square-deal non-secret medicine. Don't do it. No honest druggist will attempt to cheat you in this way. He who does should be rebuked and avoided. Doctors prescribe Dr. Pierce's Favorite Prescription for their worst cases because they know what it contains and know its ingredients to be of the very best.

It's well now and then to gently cleanse out bowel germs that breed weakness, cause foul breath, loss of appetite, dizziness and headache. Dr. Pierce's Pleasant Pellets keep bowels sweet and clean. Recommended by druggists because of their purity, goodness, and active gentleness.

## HOW TO CAN BEANS

NEW METHOD THAT IS HIGHLY RECOMMENDED.

Emma Paddock Telford, Culinary Expert, Responsible for Recipes That Will Be of Interest to the Housewife.

There are a number of different ways of canning string beans which I have given at different times. Here, however, is the new way that comes from Kansas and is very highly recommended:

String the beans, cut in two-inch lengths, cover with boiling salted water and cook until nearly tender enough to eat. Have plenty of water boiling near at hand in the kettle. Drain the water from the beans, put in sterilized glass jars and pour in fresh boiling water, leaving just space enough for two tablespoons of boiling hot vinegar. Seal and set away in the dark. When ready to use open the can, turn off the water, rinse and let come to a boil in fresh water, to which has been added a piece of soda the size of a pea. Turn off this water, scald again in fresh water, season with salt, pepper, cream and butter, and fancy without much stretching of the imagination that you are eating fresh string beans.

Another way of canning string beans is to snap off the ends of the beans and pack cold in sterilized fruit jars. Then fill the jars with cold salt water mixed in the proportion of five teaspoonsful salt to two quarts of water. Adjust the tops loosely and set in a wash boiler or large kettle, with a rack or something under them to keep them from touching the bottom, and towels or coils of rope to prevent the cans touching each other. Fill the boiler with tepid or cold water, reaching to within an inch of the tops of the jars, put on the cover of the boiler and cook two hours, counting from the time the water in the boiler commences to boil. Lift the jars out one by one and set on a board or several thicknesses of newspaper, remove the tops and fill to overflowing with salted water of the same proportions, but this time it must be boiling. Put on the rubbers, which should have also been sterilized, screw on the tops as tightly as possible and return to the boiler, adding enough more hot water to cover the can. Boil one hour longer, then cool gradually in the boiler. Lima beans are canned in the same way, but require an hour extra boiling to make assurance doubly sure. Indeed, if looking through the glass can any vegetable appears as though it needed longer cooking, do not be afraid of overdoing the matter. Longer cooking is always a safeguard.—Emma Paddock Telford.

Realty Dealer Makes Suggestion to Immigration Bureau.

Springfield, Mo., Dec. 14.—F. G. Woodruff, senior member of Woodruff & Son, realty dealers, Seligman, Mo., was the first person to send in a pet name for the state of Missouri to the state immigration bureau, recently established.

Woodruff suggested the name of "Eureka State," which, he thought, was most suitable, for, as he says, "All persons looking for a home most generally say that they have found it when they investigate the state and its wonderful resources."

The bureau is in receipt of a large number of letters each day, with suggestions for advertising the state and running the business of the bureau in general, from all parts of the Ozarks in Southwest Missouri and Northwest Arkansas.

Sermon by  
**CHARLES T. RUSSELL,**  
Pastor Brooklyn  
Tabernacle.

### God's Work and Ours

Correspondence Democrat-Sentinel.  
Brooklyn, N. Y. Dec. 12.—Pastor Russell, of Brooklyn Tabernacle, preached today from the following text to a packed house:

"Work out your own salvation with fear and trembling, for it is God which worketh in you both to will and to do of his good pleasure." (Philippians ii, 13).

The proper relationship between faith and works and between God's work and ours are matters apparently not clearly understood by the majority of Christian people and, of course, not at all comprehended by the worldly. It is not only worth while, but very important, that each Christian entering into covenant relationship with God should understand distinctly his own responsibilities, the assistance which God is willing to grant him through the merit of Christ, and what is required of him individually in the matter of good works. A great stake, a great prize is involved. Carelessness or ignorance might jeopardize this prize—might lose us a place amongst "the very elect," shall be joint-heirs with their Redeemer in his Millennium.

Kingdom soon to be inaugurated for the blessing of the whole world.

Mark well that we purposely avoid the error which so long had beclouded our spiritual vision. Note that we do not say that a failure to be amongst "the elect" would signify to be with damned millions in eternal torture. No such unreasonable proposition is represented in God's Word. The question of this Gospel Age is to gain or not to gain eternal life and glory and honor as members of the Body of Christ. In a word, not pleasure or misery, but life or death, is the alternative.

Who are addressed by the Apostle in the words of our text? He is not addressing the wilful or ignorant wicked—the world. He is addressing those who had been such, but who repented, reformed, turned to God, and saw a great light. They have seen themselves to be sinners under just condemnation of the Creator, have seen also that Jesus, the Sent of God, has provided reconciliation with the Father through his blood—his sacrifice. More than this they have by faith accepted this proffered grace of God, and through a full consecration of their all, made acceptable through their Advocate, they have been advised that as children they are "heirs of God, joint-heirs with Jesus Christ" their Lord, their Head, their Redeemer, in the glorious Millennium Kingdom which the Father has foretold shall be his for the blessing of all the families of the earth. But all these blessings they have received through faith and not actually. They must wait for the actualities until they and all of their brethren of the same class, "called of God in the one hope of their calling," shall have been tried, tested, perfected, in character, in heart, "Copies of God's dear Son."

How God Works In Us.  
Our text declares that we should

work out our own salvation, because it is God that worketh in us. This puts God's work first and ours subsequently. Let us therefore consider the matter in this order. How, in what sense, does God work in his people—not in the world; not in the repentant sinner; not in the merely justified; but in those who have passed those stages of approach to God and, by the begetting of his holy Spirit, have entered his family as children, as sons? "Behold what manner of love the Father hath bestowed upon us, that we should be called the sons of God" (I John iii, 1). "And if children, then heirs of God work in such as have thus become his children—his sons?"

We reply that he works in them through his spirit—the spirit of the Truth; the spirit of holiness; the spirit of consecration; the spirit of sonship. That is to say, a certain holy power or influence operates in and about the spirit-begotten children of God in harmony with this relationship. It has to do with all of their experiences in life—home, family,

business, joys, sufferings, pleasures, sorrows.

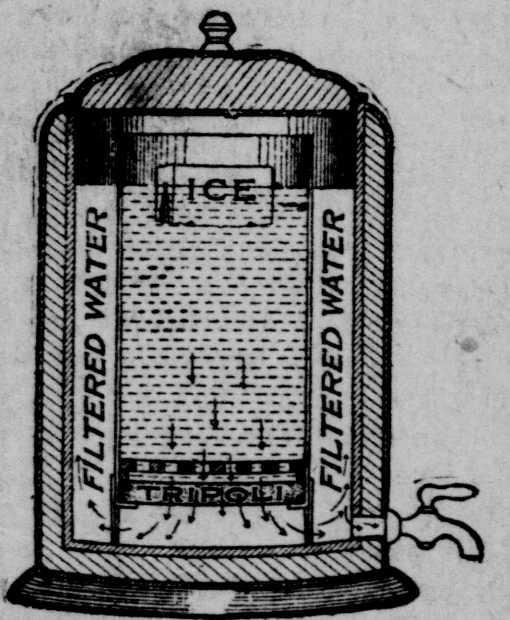

But God's special way of dealing with his spirit-begotten children is through their intellects—communicating with them through the holy Scriptures. As the Apostle says, "God who spake in time past unto the fathers by the prophets hath in these last days spoken unto us by his Son" (Hebrews i, 1). The twelve apostles whom the Father specially gave to him, he particularly accepted as his representatives, his mouthpieces, the channels through whom would come to the family of God the instructions necessary for their development in holiness—the instructions necessary for their attainment of the hope of their calling—glory, honor and immortality in joint-heirship with Jesus their Redeemer as the spiritual Seed of Abraham for the blessing of the world (Galatians iii, 29).

Our Lord Jesus refers to this work of God in his people through his Word, saying, "Sanctify them through thy Truth. Thy Word is Truth" (John xvii, 17). St. Paul refers to the Scriptures as the power of God, saying, "All Scripture is given by inspiration of God, and is profitable for doctrine, for reproof, for correction, for instruction in righteousness; that the man of God may be perfect, thoroughly furnished unto all good works" (II Timothy iii, 16, 17).

"Ye Are God's Workmanship."  
We have seen that God does a work in his consecrated people, using his providences in connection with the

experiences of life, and that he specially uses his Word for their instruction in righteousness. We are to remember incidentally that our Lord Jesus who redeemed us and reconciled us by his blood is still our Advocate with the Father and our Instructor as the Father's representative; that through him we may be all taught of God—in the School of Christ. Next we should note the Divine method in this work of grace being carried on in our hearts from the time we fully submitted them in full consecration, in faith. Our text declares that God's work in us is divided into two parts—to will and to do. Let us examine first—

**How God Works In Us to Will.**

The will is the real person or ego. The body is merely responsible as the agent or servant of the will. With the world the will and the body are usually at one—sympathetically co-operative. But in those begotten of God's Spirit as his children matters are different. Their wills by consecration are developed along lines quite antagonistic to the natural preferences of their flesh, so that the Apostle wrote, "With the mind I myself serve (or desire to serve) the Law of God, but with the flesh I serve (or desire to serve) the law of sin" (Romans vii, 25). Hence every spirit-begotten person has a warfare between his new mind, with its holy aspirations and desires and its opposite flesh with its animal propensities, some good and some bad. Hence the Apostle exhorts all these New Creatures to "war a good warfare" against their own flesh and to bring it into subjection to the New Mind and to the Divine Law. He urges that we "Bring every thought into captivity to the obedience of Christ" (II Corinthians x, 5). This, of course, would mean absolute perfection, so far as the New Creature would be concerned and a complete deadness so far as the flesh is concerned. With every thought captivated to the Lord the individual would never in any sense commit sin other than the sin of ignorance or imperfection.

God works in the minds of his people not along the lines of enslavement of the mind after the manner of Satan and those who are subject to his delusions—by hypnotism, etc. God's operation is the very reverse of this. He enlightens the mind to do his work. He displays to our minds gradually light and truth, purity and goodness in their true colors, in contrast with sin, ignorance and defile-

ment. And in the same words he sets before us the great prize of glory, honor and immortality and joint-heirship with our Redeemer in his kingdom. The power of these hopes working in a consecrated mind is wonderful. It can make the naturally weak strong, the naturally timid bold as a lion.

This operation upon the mind is a gradual one from the time of our begetting of the Holy Spirit until our change—not all at once, but gradually, little by little, the Lord displays to us one feature after another of his wonderful plan of salvation. Step by step he shows to the appreciative and obedient heart the riches of his grace, his loving kindness, his tender mercy, the boundlessness of his love and the ultimate outworking of his divine powers for the blessing of all of his creatures who will accept his favors on his own terms. All the while he leaves us free agents to will in harmony with his proposition or to reject it. He will coerce no one. Our Lord Jesus expressed the Father's sentiment in this matter, saying, "The Father seeketh such to worship him as worship him in spirit and in truth" (John iv, 23).

**How God Works in Us to Do.**

Endeavor to do right naturally follows right willing. But this does not signify that God completes a work upon our wills first and then begins a fresh work upon us, stimulating us to do right to the best of our ability. On the contrary, as through his providence and Word God exercises an influence upon our wills through the knowledge of this truth, little by little each new point of truth was expected to be acknowledged by efforts on our part to do God's will to the extent that the new will was able to control the imperfect body. We may safely conclude that each step in right-willing must be followed by a step in right-doing before another item of grace and truth would be granted as a basis for additional willing and then additional doing. Thus, as we walk by first putting one foot forward and then the other repeatedly, so the new creature walks or progresses by first willing and next doing the Lord's good pleasure to the extent of his ability.

As surely as the right willing is the result of divine operation in the revealing of truth, so also is the right-doing. Of the divine influence in our hearts working in us both to will and to do God's pleasure, St. Peter gives us a word right to the point, saying:

"Whereby are given unto us exceeding great and precious promises; that by these ye might be partakers of the divine nature" (II Peter i, 4).

**Work Out Your Own Salvation.**

We have heard many improper prayers presented at the Throne of Grace by well-intentioned but misinformed children of God. Many Christians ask God to do for them that which He tells them they must do for themselves. The one who asks amiss sometimes leaves the Throne of Grace confident that God will do for him what God has never promised to do for anybody, but has told us each must do for himself. Many pray "Abandon us not in temptation, but deliver us from the evil one," and then walk straight into temptation, wholly neglecting the directions of God's Word. Indeed,

## Free Dyspepsia Sample

Sufferers from indigestion are waking up to the fact that peppermint lozenges, charcoal and "dyspepsia cures" are only makeshifts in the cure of so troublesome a complaint as chronic indigestion. What is required is something that will not only relieve but which will tone and train the digestive apparatus to again do its work normally, and this these simple remedies cannot do. There is something more to the cure of indigestion than sweetening the breath, and yet a remedy that only contains digestive ingredients will not cure permanently, as the basis of indigestion is poor bowel circulation, and that requires a scientific laxative. We know of no remedy that combines these requirements better than Dr. Caldwell's Syrup Pepsin, which has been sold for a quarter of a century. Dr. Caldwell's Syrup Pepsin is a laxative tonic, a scientific blending of natural ingredients for the cure of constipation, indigestion, liver trouble, stomach, sick headache and similar complaints. Its ingredients will so strengthen the stomach and bowels absolutely that they will again do their work naturally, and when that has been accomplished the trouble is over. Fannie Stuart, Staunton, Va., was a long-time sufferer, as was O. Tuck, Blackburn, Mo., and they both found their cure with this remedy. They became convinced that pills and tablets, salts, "dyspepsia cures," etc., were at best only temporary relief. They first accepted Dr. Caldwell's offer of a free sample bottle, which he willingly sends to anyone who forwards name and address. Later, having convinced themselves through the free sample, they bought Syrup Pepsin of their druggist at fifty cents and one dollar a bottle. Dr. Caldwell personally will be pleased to give you any medical advice you may desire for yourself or family pertaining to the stomach, liver or bowels absolutely free of charge. Explain your case in a letter and he will reply to you in detail. For the free sample simply send your name and address on a postal card or otherwise. For either request the doctor's address is Dr. W. B. Caldwell, R. 509 Caldwell building, Monticello, Ill.

## SALOON WRECKER

**CARRIE NATION TURNS DOWN TWO OFFERS TO BECOME "FAIR" BRIDE.**

### SHE PREFERS TO BREAK BOTTLES

Gives Myra the icy Mitt—Mrs. McHeney, Mrs. Nation Avers, Is Not in Her Class—Appeals From \$100 Fine.

Washington, Dec. 14.—Carrie Nation, of Kansas, has received two genuine offers of marriage since she charged the bar at the Union station last week and bathed the expensive terminal in red rum.

The first proposal reached Carrie when she was in the work house, following her Union station activities, and was from a boatswain in the navy.

She declined, one of the reasons being that her suitor, a boatswain in the navy, frankly told her he was tired of work and wanted some one to support him. Her second offer came from John Slatter, a Virginia farmer. "I'll marry you if you'll have me," said John. "I like your git up and git. You could help me handle the place all right."

Again Mrs. Nation declined, remarking that she would rather let loose the prisoned devil of bottled in bond with her faithful hatchet than get up mornings to tease the lactical fluid from a reluctant cow.

As a result of her Union station smashing expedition, Mrs. Nation was fined \$100 in the police court yesterday. The alternative was sixty days in the work house. Through her attorney she announced an appeal to the court of appeals in the District of Columbia, where the case will hinge on whether whisky is property and the Union station bar has been licensed properly.

Pending the decision of the court of appeals, Mrs. Nation will be at liberty to attend the meetings of the reformers' convocation, a conference of temperance advocates from all parts of the country, which was begun here yesterday.

Incidentally Mrs. Nation turned a cold eye on Mrs. Myra McHeney, who was in court yesterday. "She's no smasher," said Mrs. Nation. "She never threw anything heavier than a paper ball in all her life." Mrs. McHeney claims to be a saloon wrecker in the Nation class.

The peculiar properties of Chamberlain's Cough Remedy have been thoroughly tested during epidemics of influenza, and when it was taken in time we have not heard of a single case of pneumonia. Sold by all dealers.

### The Humble Librettist.

In the history of opera there are many curious anomalies; but perhaps the strangest is the role played by the librettist. For the most part obscure and unimportant and generally unremembered, his ranks have nevertheless been recruited from the ablest and most brilliant men of letters. Among those who have undertaken the part are such unlikely names as Voltaire, Goethe, Wieland, Addison and Fielding; while others of considerable poetic talent, as, for example, Metastasio, Calzabigi, Rinuccini, Boito and Coppee, have tried their hand at libretto writing with assurance, giving to it their best efforts. And yet the most successful librettists are few—the merest handful out of a harvest of three centuries.—The Forum.

### Bavarian Beer.

Bavaria remains easily ahead in its consumption of beer, for last year, we are told, it drank 248 quarts for every man, woman and child in the kingdom. Though the ladies assist, we may set aside the children and conclude that the average Bavarian man is not far outside a gallon a day. But this is not so dreadful as it sounds, since if alcohol in any form be harmless, it is surely least harmful and most delightful in the form of Bavarian beer as drunk in its native land. And the stalwart peasants and mountain dwellers love it so well that they do not yearn for the grosser indulgence of intoxication. The day is not long enough for a man to make himself drunk on Munich beer.

### Singular Coincidence.

It was indeed a singular coincidence to which President Eliot called attention at Dartmouth the other day, in the presence of the two men. "My old friend," said Dr. Eliot, "James Bryce, an Englishman, happens to have written the best book there is in existence about American government. And my successor, President Lowell, an American, has written a better book than any Englishman has yet dreamed of writing about the government of England."

## FATAL TO SLUMBER

**WAS DISCOVERY MADE BY MRS. PITMAN.**

**Sure Some Horrid Animal Was in the Bed, and the Judge Was Responsible for the Rest.**

Judge Pitman is a very absent-minded man, and this peculiarity more than once has gotten him into trouble. The other night, as he was retiring, he got to thinking very hard about a prospect for resigning the steeple of the Presbyterian church, of which he is a deacon, and he was so absorbed that he went to bed with his spectacles on. They are the old-fashioned, heavy, silver kind. After a while they dropped off, and during the night worked down under the covers. Just before daylight the judge was awakened by a shriek from Mrs. Pitman. Sitting up he saw that excellent lady standing by the side of the bed, with terror pictured in her face. He said: "Why, my dear, what's the matter?" "There's a snake in the bed!"

"O, nonsense!" exclaimed the judge, getting out as suddenly as if something had bitten him.

"It's a snake, or a rat, or something of the kind," said Mrs. Pitman; "something cold and clammy. I felt it crawling along my leg. It woke me up. There! I see it moving under the covers now. See that! Maybe it's a toad!"

"Perhaps it's a mouse," suggested the judge.

"It's awful!" said Mrs. P. "A mouse crawling around over me in bed! It almost makes me sick!"

"They are very harmless, my dear," said the judge; "but still, it certainly

isn't pleasant to have them in bed. Get me the broom, or something, and I'll kill it."

Mrs. Pitman procured the broom, and then the judge said: "Now, you turn down the covers slowly, and I'll whack him."

Mrs. Pitman took hold of the quilt as if it were poisonous, and, pulling downward, waited for the animal to appear. The judge at last thought he saw it, and he brought the broom down with terrible force. He held it upon the object with all his strength, while Mrs. Pitman went for a bucket of water. Then the judge pushed the broom along over the bed, and dropped the offensive thing in the bucket. It sank to the bottom, and they took it to the light to examine it. When the judge cast his eye upon it he said, in disgust:

"Mary Jane, you always were a fool! Why, thunder and lightning, it's my spectacles, and the glasses are smashed!"

Then Mrs. Pitman began to cry, and, as the judge said it would be ridiculous to sleep on a bed full of broken glass, they went to bed in the third story.

The judge has taken to wearing India-rubber eyeglasses, and he hitches them to his coat by a string.—New York Weekly.

**Awarded Damages to the Extent of \$6,000 in Texas.**

San Antonio, Texas, Dec. 13.—The fourth court of civil appeals in this city awarded to J. T. Grant, an engine inspector of the Southern Pacific, damages to the amount of \$6,000 for the permanent injury of his right ear.

Grant, it appears, was inspecting an engine of the company and had his head close to the whistle when an employee in the cab set off three blasts at a pressure of 190 pounds of steam.

He alleges that the vibration caused smashed his ear drum. The award was originally made in a lower court, but was appealed by the defendant.

Chicago, Ill., Dec. 14.—Mrs. Alice Edwards, who says she is a prominent St. Louis member of the Order of the Eastern Star, is in a cell at the Harrison street police station for trying to be a good Samaritan to a stranger—William Lloyd. As co-defendant with the Chicago man, she was ar-

## BABY'S ITCHING WAS INTOLERABLE

**Girl of Six Months had Fearful Attack of Eczema—Spread All Over Her Face and Eyes Began to Swell—Scratched Till Blood Came—Relieved in a Night and**

**CURED BY CUTICURA AFTER LONG SUFFERING**

"When my little girl was six months old I noticed small red spots on her right cheek. I did not pay any attention to them but finally the spots grew so large that I sent for the doctor who said it was ringworm. He prescribed an ointment which I used for two weeks, but instead of helping the eruption, the ointment seemed to make it worse. Then I went to a second doctor who after examining the baby said it was eczema. He also gave me an ointment which did not help either. The disease in the meantime spread all over the face and the eyes began to swell. I became very anxious. The itching grew intolerable. I had to tie the baby's hands to the cradle to prevent her scratching. The cheeks were covered with blood and it was a terrible sight to see. I consulted doctors from September to December, but they were unable to cure the baby. I paid out from twenty to thirty dollars without relief."

"One of my friends told me of the Cuticura Remedies and I sent at once for a set which I began to use that evening. The next morning the baby's face was all white instead of red and you can imagine how surprised I was. I cannot find words enough to praise Cuticura and I do not know what would have become of my baby only for it. I used the Cuticura Remedies until the eczema entirely disappeared. The child is now three years old and quite well. I used three cakes of Cuticura Soap, two boxes of Cuticura Ointment and one bottle of Cuticura Resolvent and I never use any other soap. I always recommend them whenever there is a chance for doing so. I will send you one of her pictures which she had taken just after she was healed. Mrs. L. E. Gumbin, Sheldon, Ia., July 13, 1909."

raigned yesterday before Judge Beiler.

"I saw this man staggering around in the rain and took pity on him. I went out in the rain and aided him to a restaurant to buy him a dinner, hoping it would sober him. I did that and gave him a little money."

"What does he do but go right back into a saloon. I went after him and tried to help him and was arrested."

Testimony was given by policemen that Mrs. Edwards had caused a disturbance at the Grand Pacific hotel. Because of the tongue lashing the woman administered to Lloyd she was remanded to a cell for contempt of court.

The greatest danger from influenza is of its resulting in pneumonia. This can be obviated by using Chamberlain's Cough Remedy, as it not only cures influenza, but counteracts any tendency of the disease towards pneumonia. Sold by all dealers.

### MARKET VALUE OF SEAWEED

**Material Generally Little Thought of Is of Use in a Variety of Ways.**

Seaweed is not much to look at, but seaweed does not depend so much upon beauty as upon more substantial merit to make itself worthy of attention. Various species of it are used in manufactures, and several varieties are edible, the most important of the latter being Irish or carrageen moss, used in the preparation of jellies; blanch-mange, for instance—dulse, or dilseik, very highly thought of in Scotland, particularly when roasted by wrapping about hot tongs, and kelp or tangle.

Irish moss and some other species, particularly eel grass and flat-stalk rock weed, have been found valuable as a cattle food, especially when boiled to destroy the rank taste, and mixed with meal. The eel grass and rock weed compare favorably with hay as regard the most important constituent—protein, containing 6.03 and 8.21 per cent, respectively. They are deficient in fat, but contain a large amount of ash.

The great bulk of the seaweed gathered, however, is used as a fertilizer, and the average seaweed contains large quantities of all the essential fertilizing elements. Allowing ten cents a pound for nitrogen, 2 cents a pound for phosphoric acid, and 4 cents a pound for potash—and these are as low prices as it is possible to procure those materials in any form—a ton of seaweed, containing 80 per cent water, is worth as a fertilizer \$1.42 a ton.

### CEASED TO BE A NOVELTY

**Story of a Brand New Hose, Delighted Father and Two Very Indutrious Children.**

"Don't you touch it," said the mother, as the coil of nice new rubber hose was deposited with a thump on the back porch, radiating a smell unlike anything else on earth. "Wait till your father gets home."

The children met the father a block from home. They informed him with

whoops that the nose had arrived and the father beamed upon them.

After supper, and not before, the father removed his coat and went forth, bearing the hose and followed by the expectant children. He stretched it tenderly out on the grass, having heard that to drag a hose wore it out.

Then he went to the tap and turned on the water. The hose writhed in the middle, then spit fizzingly and delightfully at the nozzle and, turning about like a snake, sent a heavy stream of water squarely into the open parlor window.

"Here!" yelled the father, "why didn't you children hold that nozzle?" "You said not to touch it," they explained.

"Oh, papa, lemme sprinkle," pleaded the little girl.

"Lemme, papa," begged the little boy. "Me first." But the father continued to sprinkle, first the street, then the grass, and wound up by washing off the porch with refreshing jets.

"You can sprinkle to-morrow," he told the children as he unfastened the hose.

The next evening was marked by a fight in which the little girl received a black eye, the little boy a battered nose, and both a thorough wetting.

A week later the father looked up from the evening paper.

"Heavens," he said, "how dry everything is. Why don't those children sprinkle the grass?"

"Children," said the mother, "go sprinkle the grass."

"Make sister do it," said the little boy. "I sprinkled last."

"He didn't, neither," said the little girl. "He never does want to do any work. Make him do it, mamma."—Dallas News.

## THREE GOOD IDEAS

RECIPES THAT ARE MORE OR LESS OF A NOVELTY.

Mint Jelly, Properly Prepared, Something the Housewife Should Never Be Without—Liver and Pepper Is a New Dish.

Mint Jelly—Genuine mint jelly that is a beautiful green; Things both good to the taste and the eye are most desirable. The mint jelly recipe cannot be surpassed by anyone who cares to entertain artistically. This is especially nice when lamb is used. When cooking one-half peck of apples for jelly add two bunches of fresh green mint, strain as usual for jelly. Later, when cooking the juice and sugar half and half add enough green vegetable coloring (which can be gotten from any druggist) to give the desired color. Use the tiny wine glasses, so that each guest may have an individual mold, or so the meat platter may be decorated effectively.

Liver and Pepper—Lay some strips of fat fresh pork in a small earthenware dish and place over the fire until they begin to brown, add half an onion sliced, two ripe peppers, and also sliced (rejecting the cores), and two pounds of fresh pig's liver, deeply washed and larded on top with more strips of pork. Dredge thickly with flour and fry slowly for ten minutes, turning the meat once. Scrape half a dozen carrots and cut in strips lengthwise, place these around the liver with a handful of minced parsley or celery tops and salt and sweet herbs for seasoning, lastly add one cup of boiling water and half a glass of currant jelly; cover closely and bake in a moderate oven for 2½ hours. This makes a most savory and satisfying dish from an inexpensive piece of meat.

Squabs Stuffed with Corn—Cut the kernels of six ears of green corn, scraping out all the milk, but taking care to get in none of the cob. Put into a saucepan two tablespoonfuls of butter, a half cupful of hot water, salt and pepper to season. Cook a few moments, add one beaten egg and cook until thickened. Stuff the birds, lay in a baking pan, with a thin slice of bacon, blanketing each fat little breast, put a cupful of hot water in the pan and roast, basting frequently. This makes a delectable dish. Canned corn can be used instead of corn on the ear when the latter is not in season.

Pains of women, head pains, or any pain stopped in 20 minutes sure, with Dr. Shoop's Pink Pain Tablets. See full formula on 25c box. Sold by D. I. Wilcox.

## ALMOST A MENAGERIE

This Is the Boast of Lancaster, Mo., at Present Time.

Lancaster, Mo., Dec. 14.—What might be termed a "near-menagerie" is conducted at Lancaster by Billy Hall, the horse buyer. Lancaster has gained considerable fame on account of being the greatest horse and mule market in the world, and now as headquarters for wild animals it will become more famous than ever.

Hall deals in everything in the animal line, from a Missouri wolf to an India elephant. In some of his barns he keeps nothing but wild animals. Some of them are trained for circuses and are sold or rented to such organizations.

Mr. Hall states that he expects to receive a large consignment of elephants from India next season, which will be trained here for circus purposes. It is stated that the animals will be accompanied by natives who will look after their welfare.

## GET \$500 A WEEK

THE HERO OF THE CHERRY, ILL.,  
MINE HORROR IS A VERY  
BASHFUL MAN.

## HAS AN ENGAGEMENT IN ST. LOUIS

Man Who Cheered His Comrades in Cherry Disaster Will Only Answer Questions—Made Concession to His Creed.

St. Louis, Dec. 14.—William H. Clelland, the man who sang "Abide With Me" in the second vein of the ill-fated St. Paul mine at Cherry, Ill., to keep up the spirits of the nineteen other entombed miners, is in St. Louis to accept an offer of \$500 a week to sit in a "reception hall" of the new Lyceum theater, to be opened Wednesday at 606 Washington avenue, when he will make his first appearance.

The words "reception hall" have been substituted for "theater," at which the strict Scotch Presbyterian conscience of the miner balked. He has inherited all the prejudices of his creed against theaters, and while his thrifty Scotch nature would not allow him to refuse the handsome salary of \$500 a week he insisted on some technical salve for his conscience in the contract. "Reception hall" is the salve.

Clelland and his comely young wife, Ellen, and their two children, Frances, 8 years old, and William, 5 years old, are stopping at the Barnum hotel, 508 North Sixth street, waiting until Wednesday to go to work. He will have no monologue, but will tell the graphic story of his week's imprisonment to any who care to question him.

Clelland told a reporter Monday the story of the fight for life made by himself and his companions, all of whom were foreigners except himself, the tortures they suffered, and finally their rescue a week from the day they were imprisoned.

"We were in the second vein," said Clelland, "when the fire broke out. We started to run toward the shaft. The dense black smoke, however, was welling up, and as we ran the skin on our lips began to crack, our faces swelled and our eyes almost burst out."

"Finally, we advanced to a point where the smoke was so dense it was impossible to breathe. We retreated three-quarters of a mile, to the extreme end of the second vein. There, after consultation, we erected two brandies, made of coal and dirt, that extended from wall to wall and from floor to ceiling. We imprisoned ourselves in a space seven feet wide, five feet high and seventy feet long. There were twenty of us then."

"We had no air except that which crept in through the brandies, and no food. For a day or so we were consumed by an awful hunger, which gave way to an intense thirst. We had no water except that which seeped through the coal dirt and resembled some thick, black mixture. We could only get this by the teaspoonful, but in our conditions, with our faces black and swollen, it seemed like a gallon."

"The Italians in the party became weak and gave up hope, and it devolved upon me to keep up their spirits. I knew if we gave up we would die, so I would stand up and sing as loudly as possible. Although my condition made this difficult, my throat was dry and parched, you know."

"On the following Saturday we decided to make a dash for liberty. We broke through the brandies and started for the shaft. The two men in the lead came upon a dead mule, and the sight sickened them. I took the lead and we crawled along—at one time I had seven men hanging upon me."

Here Clelland exhibited the clothing he wore, and the knees of his trousers and underwear were worn through.

"We soon came upon our rescuers and they took us out. It was the happiest moment in my life when finally I saw daylight for the first time in a week."

Mrs. Clelland told of her experience. She said she spent all of her time at the mouth of the mine, stopping only long enough to put her children to sleep and then go back. She said she only expected her husband's body, and the sight of him alive was almost as great a shock as when she received the first news of the mine being on fire.

## Silence!

The instinct of modesty natural to every woman is often a great hindrance to the cure of womanly diseases. Women shrink from the personal questions of the local physician which seem indelicate. The thought of examination is abhorrent to them, and so they endure in silence a condition of disease which surely progresses from bad to worse.

It has been Dr. Pierce's privilege to cure a great many women who have found a refuge for modesty in his offer of FREE consultation by letter. All correspondence is held as sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Favorite Prescription restores and regulates the womanly functions, abolishes pain and builds up and puts the finishing touch of health on every weak woman who gives it a fair trial.

### CALLED HIM PEACOCK

Adjutant General Must Pay Fine of \$100 and Costs.

Frankfort, Ky., Dec. 14.—Governor Wilson yesterday granted a pardon to Adj. Gen. P. P. Johnston, who was indicted for striking Editor Denny B. Goode, of a Louisville weekly newspaper, for criticism of Johnston.

The governor says Johnston must pay the fine of \$100 and court costs. In the article objected to Goode referred to Johnston as a "peacock."

### NO MORE GRAY HAIRS

It is easier to preserve the color of the hair than to restore it, although it is possible to do both. Our grandmothers understood the secret. They made and used a "sage tea," and their dark, glossy hair long after middle life was due to this fact. Our mothers have gray hairs before they are fifty, but they are beginning to appreciate the wisdom of our grandmothers in using "sage tea" for their hair, and are fast following suit. The present generation has the advantage of the past in that it can get a ready to use preparation called Wyeth's Sage and Sulphur. As a scalp tonic and color restorer, this preparation is vastly superior to the ordinary "sage tea" made by our grandmothers and it can be bought for 50 cents and \$1 a bottle at almost any first-class drug store, or will be sent direct by the Wyeth Chemical Company, 74 Cortlandt St., New York City, upon receipt of price.

For sale and recommended by W. E. Bard Drug Company.

### ACCORDING TO THE CONTRACT

Rug Merchant Overreached Himself in Making Terms for Sale of Carpet.

"While I was in Damascus," said a globe trotter the other day, "some royal highness or other potentate passed through that ancient city and the governor of the town delivered an address of welcome. It was in verse and everybody who knew of the occurrence felt sure that the governor had been richly rewarded by the prince for his effort. That afternoon, so the story goes, the governor called on a dealer in rugs with whom he had been chaffering for a long time over a magnificent carpet which he coveted for his palace. After several cups of coffee the rug merchant offered the governor the carpet in exchange for the present the prince had given him for his poetic welcome to Damascus. The governor, after a little hesitation, agreed and the carpet was rolled up and delivered to an attendant who started for the governor's palace.

"Thank you," said the governor, as he arose gracefully to his feet.

"But the prince's present," demanded the rug merchant.

"You have it," said the governor, "all he gave me was 'thank you,' and this I have given you for your carpet."

Some pray to God to save them by His Divine power and expect Him to work miraculously in them while they are giving the best of their time and talent and influence to business or to pleasure or to self-gratification. He is now calling to worship and to joint heirship with Christ in His kingdom.

During the Millennium the world will receive all sorts of pushing, pulling, driving and "stripes" for their correction in righteousness, to make them all eventually see, to ultimately force all to take their stand for right or wrong, intelligently. But now it is different. God is "calling," "drawing" and "accepting" through faith in Christ as members of the body of Christ only such as have a willing mind, only such as can be moved to energy and devotion by enlightenment of their minds through the Truth. None others are wanted for this "elect" class.

Those who rightly understand our text could never have misunderstood the Savior's words to the dying thief, "Thou shalt be with me in Paradise," as to suppose that the penitent thief would be a member of the elect church. His joint heir in the kingdom. Indeed not! That thief had not worked out any salvation! He will, indeed, be in Paradise eventually. Paradise will be restored and the whole earth become as the Garden of Eden under the Millennial reign of Christ and His "members," the church. But he was not "transformed by the renewing of his mind" that he might prove the good, acceptable and perfect will of God. He never added to his faith fortitude; and to fortitude knowledge; and to knowledge temperance; and to temperance patience; and to patience godliness; and to godliness brotherly kindness; and to brotherly kindness love, as the Word assures us all must do who would make their calling and election sure (II Peter 1, 10-11). We will not, however, discuss the thief further, as we did so on a previous occasion and the sermon is in print. I will be pleased to mail it free on receipt of postcard request.

The Spirit-begotten children of God must work out their salvation as new creatures in Christ by growth in grace and growth in grace means growth in knowledge, not general knowledge, but the special knowledge provided by the Lord in His Word. It is in full accord with what we everywhere observe of the wide-spread ignorance of the Word of God, even amongst Christians, that the Scriptures declare, "My people perish for lack of knowledge" (Hosea 4, 6.)

Development in heart, in character, is necessary to fit us for the future service as members of the Christ, associated in His glorious kingdom work. Our call is to be kings and priests that we may serve the world of mankind. To prepare us for that service is the object of the present call and the trials of faith and patience, that by all these, character-likeness of Christ might be developed in us. If we do these things we shall never fall and an entrance will be granted us into the everlasting kingdom of our Lord and Savior Jesus Christ. If we do these things heartily they will prove that we are copies of the Lord Jesus, and it is God's predestination that only such as are copies of God's dear Son shall be His joint heirs in the kingdom (Romans 8, 17).

Pastor Russell will be glad to have a post card from such of our readers as are interested in his weekly discourses, and have received some blessing from them. Suggest topics for next year's sermons and mention this paper.

Pastor Russell has laid in a supply of little booklets containing the beautiful poem, "The Sweet Brier Rose." He proposes sending one of these as his response to the first thirty of our readers heard from. To the sender of the first card received and to the senders of the three most interesting cards, he will instead mail a beautiful celluloid book-mark, heart-shaped, bearing two texts of Scripture and a photograph of the Savior, copied from an emerald intaglio found in the Vatican library and supposed to have been executed in the fourth century.

### HAD MANY YEARS ON EARTH

Remarkable Band of Aged People to the Credit of English Country District.

A medical correspondent has sent us an interesting extract from the Chard and Ilminster News, for the accuracy of which he is able to vouch, as he is the professional adviser of all the persons mentioned with the exception of Sarah Morris. He had attended Jacob Trott for some years before his death. The extract is as follows: "Chard has recently lost its oldest resident, Jacob Trott of Clarke's row, who was in his ninety-seventh year, and could thus remember the battle of Waterloo. Trott, however, could not claim longest residence in the town, as he was born at Broadway and had only been in Chard 24 years. He was blind for many years previous to his death. His two sisters, who pre-deceased him, attained the ages of 84 and 80, while a daughter of the old man is in her seventy-third year. Trott's remarkable age led us to inquire as to whether there were any other nonagenarians living in the district. Our quest was not in vain, for we find that at Tattworth there is a Sarah Morris, aged 93; in High street, Chard, Eliza Tucker 90; at Winham, Samuel Spurdle, 91; at Purtington, Uriah Sanways, 90, who still continues his occupation as a shepherd; and at Bath lane, Chard, Mary Totton, 90, who is still quite proficient with her needle. The combined ages of these five persons thus aggregate 454 years, which if not constituting a record must run very close."—Lancet (London).

#### Records Broken at Joplin.

Joplin, Mo., Dec. 14.—If the business transacted in Uncle Sam's building is any indication of the progress being made at Joplin there is no question but that the city is making an enviable record. Receipts for stamp sales last month were \$6,524.11, an increase of \$1,365.68 over November of last year. This large increase

in receipts from the sale of stamps is due to the natural growth of Joplin, according to government officials.

### TERRIBLE INDIGESTION

People go on suffering from little stomach troubles for years and imagine they have a serious disease. They over-eat or over-drink and force on the stomach a lot of extra work.

If these people would take a Mi-o-na tablet with or after meals it would be a great big help to the stomach in its strain of over-work.

No matter what you eat or drink Mi-o-na tablets will sweeten your sour stomach and stop gas belching in 5 minutes. The heaviness disappears and the stomach is greatly aided in its work of digestion.

And Mi-o-na not only promptly relieves all distress but if taken regularly will absolutely cure indigestion by building up the flabby overworked walls of the stomach and making them strong enough to digest the most hearty meal.
